

Student Enrollment Medical Information

Livingston Public Schools

It is important for the school to have, on record, information about ongoing medical conditions related to your child that might expedite care and/or attention during school hours, should a medical problem arise. The school nurse maintains medical information on all students. Other school staff shall be informed on a “need to know” basis only. If you have questions, please contact your child’s school.

Student name (last, first middle)			
Parent/guardian name (l, FM)			
Parent/guardian signature		Date	
Below, list all ongoing medical conditions (e.g. allergies, asthma, diabetes, etc)			
Below, list all current medications (Note: medications will not be administered at school without a signed authorization from the doctor. This includes inhalers that students keep with them).			
Any additional comments:
